

Scrap cable insulated/Insulated/with conver/used or new Wire system

Electric wire - 80%

product description.

Corresponds mainly to items such as IV, CVT, etc. which has a single copper core and has a standard of 60 mm² or more.

Items with a copper ratio (yield) of 80% or more and the thickness of each copper wire inside is 1.3mm or more. The price will be reduced for wires made of twisted thin wires, e.g. rubber cable, and wires with metal coating, etc.

.....

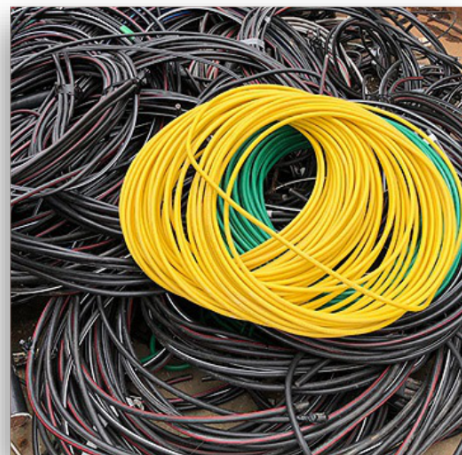

Electric wire - 70%

Product description

- Mainly corresponds to items such as IV, CVT, etc., which is a cable with a standard of 22 to 38 mm² , and CV/SV, etc., which has three copper cores of 60 mm² or more .

- Items with a copper ratio (yield) of 70% or more, and the thickness of each copper wire inside is 1.3mm or more. The price will be adjusted for wires made of twisted thin wires, e.g. Rubber cables, and wires with metal coating, etc.

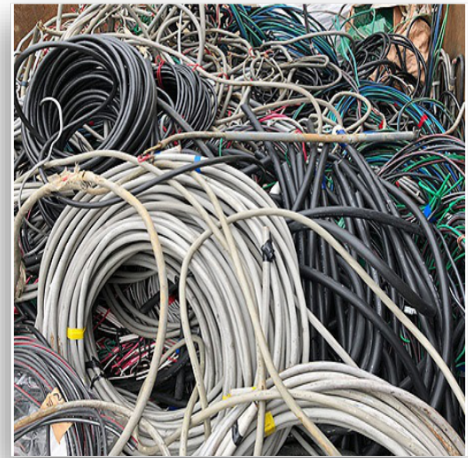

Electric wire . 60%

Product description

- Basically, it corresponds to products such as IV, CVT, etc. with a cable with a standard of 14mm² or more , and CV/SV, etc. with 3 copper cores with a standard of 38mm² or more and a copper ratio (yield) of about 60 %.

- The thickness of each copper wire inside is 1.3mm or more. The price will be adjusted for wires made of twisted thin wires, e.g. Rubber cables, and wires with metal coating, etc.

.....

Electric wire - 50%

Product description

- Basically, it corresponds to products such as IV, CVT, etc. with a cable with a standard of 14mm² or less , CV/SV, etc. with 3 copper cores with a diameter of 38mm² or less and a copper ratio (yield) of about 50 %.

- The thickness of each copper wire inside is 1.3mm or more. The price will be adjusted for wires made of twisted thin wires, e.g. Rubber cables, and wires with metal coating, etc.

.....

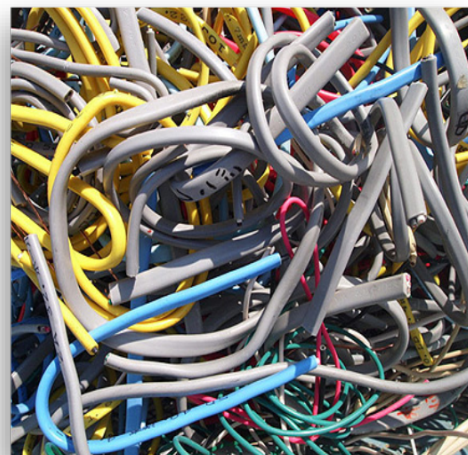

VA line (43%)

Product description

- VA wire (F cable, VVF) where each inner copper wire has a thickness of 1.3 mm² or more.

- Items with switches, electrical outlets, concrete, plaster, iron, wood, etc. Adjusted in price.

Solar cable

Product description

- Cables (electrical wires) used for solar energy
- Only for those whose conductor inside is not plated.

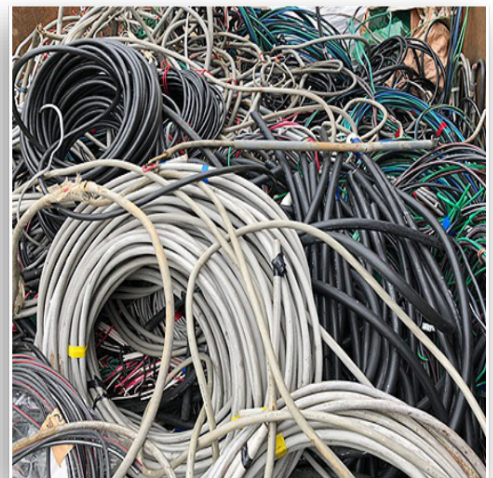

.....

Various wires (cables for household appliances)

Other product descriptions

- The copper content of electrical wiring (AC cables, power cords) for household appliances, etc. is approximately 36-38%.
- It is OK even if the plug on the socket is connected, with power adapters, power strips etc. will be treated as external scrap and no replacement will be made for plug pieces etc.

Insulated wire scrap (Harness)

Product description

- Also called a wire mat (cable mat), it is a bundle of cables used in cars.
- If there are accessories other than harness (fuse box, meter, computer, engine, components, etc.), the price will be adjusted. (A small socket at the end of the harness can be included)

Demagnetization cable (TV line)

Product description for degaussing cable (TV wire)]

- Cables used inside CRT TVs.

Scrap aluminum wire.

All aluminum Conductors. (AAC)
All Aluminum Alloy Conductors. (AAAC)
Aluminum Conductors steel Reinforced. (ACSR)
Flexible leaders.
